

Intentionally diagnosing Schizophrenia instead of Autism

Soldiers of The One

Inventor: xxxxx Year: ~????
Autistic people tend to be gifted in electronics, computer stuff, computer science, algorithms... "maybe" some big intelligence agencies did not want people to find out what is going on. So they tried to find out early who is autistic (for example by tracking the book stores and who is buying an assembler book by the age of 14) and then those people ("possibly" shrinks) in question gave the parents of the autistic child intentionally false advice; said them things like "we could give them LSD to heal him" or "we should diagnose him. Schizophrenia because \$pretext". In fact the technical system they don't want the people to know about would just activate b1 card as soon someone would talk about that, so the autistic person is "sane" if he does not warn the other people that the other people are betrayed by that system the "Architect" does not want the people talk about.

Untreue revictimizen

Sohn dazu gesteuert ersten Liebe der ewige Treue geschworen hat untreu zu werden, aufzugeben, Nächste zu nehmen. So würden Vater der Söhnes mehr Macht über die Grosskinder geben, denn sie könnten so Som mit indizieren 'at dissoziieren & fremdbestimmen, Grossertern die Grosskinder solche Bonbons geben die das revictimizen (Bild) würde dabei helfen den Vätern mit Hass die Sicht auf die Kinder zu verzerren. Die Buchhalterin wie sonst indiz für Vortatz der Grossertern. Die Grossertern würde allenfalls die Ehefrau des Sohnes dazu positionen dass der Ehemann nicht zum BOT / Haschschmitten / Alkoholiker etc unfunktioniert wird. Vater als Waffe? Es würde auch so aussehen, als ob die Kinder dann das Leiden des Vaters (Krama, Zm=0) konsumieren und so ganz-Klein gegen mittel-Klein ausspielen. Diese Karte verschleierte ev zu machen um zu dissoziieren falls die CIA/NSA-SP-Maware finden, dass der CIA so versucht Informatic-Security Menschen weltweit gefügig zu machen (L. Untreue) die nicht mehr zu Sähen und allenfalls den dieser einen 'at (L. Untreue) die nicht mehr zu Sähen und allenfalls den 1. Partner in den Sauid track und gegen alles das, was Frauen heilig ist zu Soldaten Sabata zu machen. Aber es ist noch komplexer. (Mikropunkt)

Second use case for RUP Graphics

m101

Inventor: xxxxx Year: ~????
Rational Unified Process means iterative software development process framework. People seem to use this Graphics (where there is an initial process that then triggers another processes) as a way for hiding their crimes. For example if you call a 20 years old guy (dark yellow) a criminal the would maybe get a permit for surveillance of this 20 years old "man", from the stalking jury it would look the 20 years old "man" triggered all the problems (yellow, green, turquoise) the jury would maybe not notice the initial event that caused these events because they don't stalk the real criminal (red) so they maybe even decide to kill the boy (dark yellow) See the m37 Card. Maybe Red uses this concept even to hid crimes like murderer that he committed and then would use the jury to kill the scapegoat (m46->dt1) the problem would be that if dark yellow is dead red would just take the next scapegoat and kill again, it is likely that red uses strong crypto and things like t1, t12... cards.

AUTISTIC HELMET

m166

<https://0x8.ch/HackersCardgame21>

Inventor: ??? Year: ~???
With eg. spinal cord implant they can force you to punch your fists against your own head. Mitigation would be an Autistic Helmet

Don't Stare at the Sun Algorithm

- + Student Association
- + CIA HUMINT
- + NSA COMINT
- + Local PsyOP
- + Local NSA-Guy
- + Scapegoat

In my opinion after every Quantuminsects TURBINE TARMOLL "fisching crusade" the psychological CIA part of this software tries to make the people focus down the hierarchy, eg on the Scapegoat, that was attracted with a cisco computer scholarship in 2002. I guess it are personified preentered Socio-Psychology design patterns, revictimizing things, even attacks me over spinal-cord implants, tries to drive me to take knife m32,m44, after such a attack, people seem to focus on scapegoat / hostage, often they prerender accusations and add [virtual/real] jury that judges [him/her]. It's like they would throw a virtual hand grenade down to the younger on a regular basis. *CIA: See Farbrausch fr-036* which one should do, scapegoats have informations! *Unknown: we should detect that: +=Eventtrigger: IF kid (or 41 years old "kid") cries every 3h it's maybe subject to PsyWarfare...

EVERYTHING IS GOOD / YOU WON

Info-Winkler	dynamo	ydramo	Dyno	Dynamo	Dinamo	
Dynamo	1	0.33	0.94	0.77	0.41	0.33
dynamo	0.33	1	0.33	0.33	0.25	0.22
ydramo	0.94	0.33	1	0.58	0.27	0.25
Dyno	0.77	0.33	0.58	1	0.47	0.4
Dynamo	0.41	0.25	0.27	0.47	1	0.3
Dinamo	0.33	0.22	0.25	0.4	0.3	1

If they want to make you believe in a lie they sent you eg. by Mail, Twitter or Facebook... there is some sort of pattern matching algorithm that then starts (distributed over several channels Twitter, Google, Facebook, Mail...) making you believe in that lie. Since if your brain gets the same stimulus like the lie you initially got, it begins to feel comfortable with that lie and the possibility that it believe it is bigger. Here you see an example of an implementation with Jaro-Winkler algorithm, the same possibly works also with images, speech and videos. Such an algorithm would definitively imply a big player like CIA/NSA.

btw: Great visual representation of Jaro Winkler by the way!

Skeleton in the cupboard

Inventor: Satan Year: ~????
Many Social Systems have a Gypsy Cemetery. Initially there would be "only" one dead kid, gypsy... Maybe the one, that was just ignored or forgot by the group. Some older people use things like the m37 card and tell the group to judge the equal aged, then using dt1 card. Even if group said no to m37, and if someone from the older generation pushed that red button the group would still feel bad. An additional problem would be that the older selects the next scapegoat "to protect the group". The falsely accused equal aged would probably find out about that dirty "game". So you would have a transitive (math) situation where all the older people would have to attack the youngest asking [the right | to many] questions. It seems that if you ask the right questions that the alleged murderer plays multiple such cards.
