Inventor: Satan Year: ~????
 The TV-Series "Bull" just obfuscates this. Mirror jury (represented by a mirror ball) would mean to **motivate young people to judge an equal aged kid**. Worst thing that could happen is that this equal aged kid runs amok or commit suicide. Since the whole group said "yes to judge that equal aged kid", the whole group would feel guilty (dt1 card) and therefore need more (illegal) drugs. Situations can differ: on the computer, during a party, during séance... but if the (falsely) accused survives, there will be a **part 2**. (see fr-093 with a15 card), if only one single equal aged says **NO** to kill that equal aged the older generation has one big problem: **The ONE** that did not vote to kill will ask lots of relevant questions **that will maybe prove the innocence of the group of equal aged 'judges'**. **Play the same as ritual child sacrifices, ruled by parent**. **dt1 card until dt1 was played**. They like because they are once not the person being sued but the "cool" judge that is morally better. Origins of this behavior maybe comes from the childhood and being part of a group

EXISTENTIAL ANXIETY

m45
<https://0x8.ch/HackersCardgame21>

Inventor: xxxxx Year: ~????
 Lot of people live normal lives, living not as a saint but also not a live as satan. They have their routine, their places where they do things like hobbies and where they look TV. But if one finds out, that his company sold a software to a children hospital that would risk lives of kids and then tries to force the chief to fix that chiefs tend to become angry about such an employee. When you are young you are maybe not aware of such problems. A normal reaction of the chief would be to intimidate the employee to stay silent, if you are one of this sort of people that can't silent, it is very likely to end up as a homeless, but maybe you saved many lives of innocent kids. In my case they used it about 6 Months to blackmail me, they said when i would not be silent in my apartment they would have a reason to kick me out, i was silent, noted things in my diary, though my fat

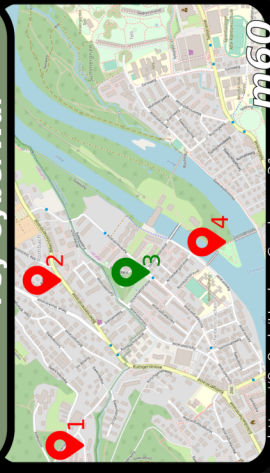

Seductive Coercion PART 2 (molest with old people)

m134
<https://0x8.ch/HackersCardgame21>

Inventor: xxxxx Year: ~????
 Even if you did not consume m133 Card, they unfortunately put old pedophile people into your bed, apparent, on your body sometimes just an avatar, sometimes real connections (m98 & m99 card) to rage you, or to make you run suicide or amok, but in fact the NSA/ CIA wants to distract you from SIGINT / COMINT and HUMINT Concept Knowledge. During this scenes they activate things like b1, t1, t15 to make you even rage more. Maybe Mail Attachment. **It is abused to force witnesses or juries to do false accusations**. It is ok for me, if younger people don't help me or older people in the face of attack, but putting an innocent person like me into jail or a mental institution is not ok. In this case i / we can not protect you anymore because then you are already part of the problem. We we could rescue all equal aged and younger people, since we know that now, we need a method to protect the complete social network (COMINT /SIGINT) of the whitethat hacker / whistleblower and maybe his/her shinks if they are younger: "Firewall117"(Vorsatz), "everybody is good enough" (later m133?)

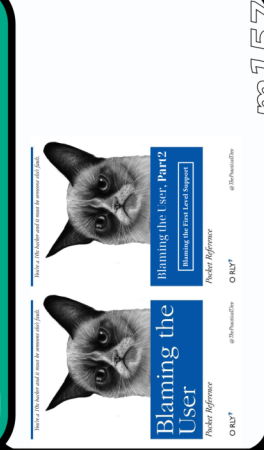

Location Based Psycho Terror / Psy-CyberWar

m60
<https://0x8.ch/HackersCardgame21>

One can program events based on the coordinates of the victims. For example if i would be near **1** the annoying janitor would be activated (* cards) and even attack me. Or if i would be near **2** lot of cars pass by, **lot of stupid males that let the engines howl** would "coincidentally" appear. For this algorithm they **must know your normal route and the average speed** you have with your bicycle. It could also be used for good things, for example at **3** there would always be lot of 20 years old that smile friendly at you. Anybody added me just the red scenes. It is also dynamic, so the "design pattern" eg. number 1 for example could even follow me, making me paranoid. So it's more of a evil design pattern that hunts me and after a while one gets completely nuts.

BlackHat ExitStrategy

m157
<https://0x8.ch/HackersCardgame21>

Inventor: xxxxxx Year: ~????
Concept Knowledge:
 Blackhats that don't comply with the law like the CISSP \$herFather, \$herMother, \$19405\$hrink know that they don't comply with the law. Therefor they normally prepare ExitStrategies, this are social psychology design patterns **transmitted maybe over hidden channel**, if the BlackHat Hack failed i normally can easily find out who wrote the attack by some sort of **Natural Language Processing / Code FingerPrinting / Psychology FingerPrinting, or if they use specific images, samples, datapoints** only \$herFather would know.
 - Blaming the [User | First Level Support]
 - Blaming a mind crime "+" committed (needs EntryStrategy)
 - Blaming or intimidating younger people
 [Family-Tree | Social-Network-Tree] -walker Algorithm / Malware
 - Blaming Software Bugs or Microsoft
 ...

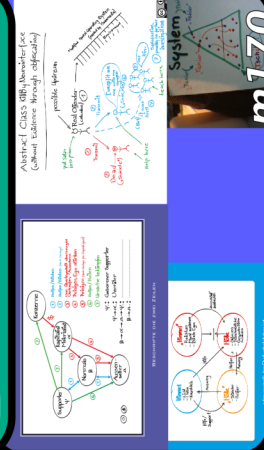

Blessings (eg. Ultra-Violet or Acid Burnings in Face)

m121
<https://0x8.ch/HackersCardgame21>

Inventor: xxxxxx Year: ~????
 IMHO the criminals use Violence, Posion, Acid and such things to distract people like me that asks "to many" relevant questions. If i am confronted with a burned face they transmit a lot of misinformation(s) that is "used" later to steer me into a wrong direction. It makes also paranoid, depressed (m94 card) and **causes me to concentrate less**. I guess they did this also with the people that asked questions if i'm the bad guy, and that led them think that i am the criminal, since they question me and are "therefor" being attacked, then it would completely make sense to believe that i am the offender or the criminal. But just saying "burned face" = innocent would also be wrong, see a14 card unknown; at least 3 "use cases" for violence
 a) violence against people that question a scapegoat, would make the scapegoat look more guilty
 b) violence against whistleblower, make him do mistakes
 c) if a criminal would order violence against himself to make him look more innocent

SOZIO-PSYCHOLOGIE

m170
<https://0x8.ch/HackersCardgame21>

Inventor: ??? Year: ~??
 More or less Psychology in Groups
 after a while i found out, that many systems work more or less the same way.
 People in Power abuse their power:
 1. Instrument of Power
 -> 2. Abuse of Instrument of Power
 -> 3. must keep power because (feels) guilty
 -> GOTO 2.

Interface for Social-Psychology Design Patterns

m137
<https://0x8.ch/HackersCardgame21>

Inventor: xxxxxx Year: ~????
 The PsYOPs seem to work in different Groups, one group tries to manipulate the Whistleblower or Whitehat, the other group seems to manipulate the family of the Whistleblower. They have touring complete avatars of all people you know, so it's quite hard to find out what is true communication(s) and what is simulation. Separation from his social systme makes it more difficult. One move of my Shrink was to tell me to catch up on my past, and my father he told not to catch up with his past. So he can inject the word "catch up" to generate an antagonizing situation (m50). I guess technically there would be some interface between such two world-views, maybe some sort of crash detection that wants to crash people intentionally, further research required.
