 My definition of a Mental Operating System would be a **almost coherent dogma room for lazy people**. See mos3 card. For example one could render down significant simpsons scenes on a **Sun Grid Engine** to 200x150 pixel and use this scenes on eg t1, t10, t12, * cards to influence the 1980s generation to do things the right way. For example when bart sells his soul and lisa helps bart to get his soul back. Since **Matthew "Matt" Abram Greening** seems to be one of the good guys it would be hard for the mos3 card people to abuse the mos1 card. Hopefully those scenes are covered by normally broadcasting fees in switzerland, but anyway see co4 card.

Paedo Mental Operating System

 Important for the CIA is the fact that they get invitation to (co)operate with young girl boy as soon as they become somehow relevant. All those of them that bites in forbidden fruit can then be blackmail with persons that would know. "Maybe" NSA / CIA daterevention systems play a role there. **The CIA would maybe integrate with a criminal record like eg pedophilia to keep them silent**. It is very likely that if one eaten this forbidden fruit things like Suicide Death Box would work better on the offender but, also the victim. Even when the stream was only a simulation, things like m32, m44 would happen, and the offender would get dt1 or m46, mos2 card obfuscates technology cards t1, t10, t12, pedophilia is a trigger card that **deactivates critical thinking because Pedophilia is a strong image, often only virtual. Played to make people eg forget about things like Mainframe or in Switzerland for example the Military Fiber Network where possibly the Active Denial Systems or the complete Country is controlled over (Backbone)**. It would be likely that the CIA promises always 88 Virgins (Seductive Coercion), but if he would fulfill the false promise the CIA would loose the influence. **Der Weg war umsonst, leidet...**

Relations Between Mental Operating Systems

 I guess the people are intentionally splitted in separate groups (divide et impera) by big sociopathic Student Associations. Throwing a kid an an Archmesis group makes him/her feel bad, psychotic and aggressive. If these big Student Agencies control also NSA/CIA/DSM5 they for example could do this with their Social Media Algorithms that would show content of Left-Wing-Extremist in a group of Right-Wing-Extremists, and for sure this would generate a big shitstorm against this single person; Behavioral Sciences

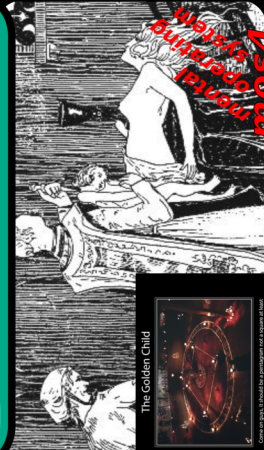

Montauk Mental Operating System

 This book seems to be suggested to people in Aarau, that had grandmothers in Aarau Gönhard as soon as they were the first time in the mental institution Königfelden.
 It talks about "magical crystals" like in the gemac Zak Mc Cracken. Talks about John von Neumann as the guy that remote controlled the mind of people with electronics, but not mentioning neuro-surgical doctors that would be required to add an interface to the brain like Neuralink. It explicitly talks not about possible technology like stimicealver or us4877027.
 There are also scenes about women, goddess what could imply that that one of the triggers to control and dissociate the first love like the situation with SonyGirfriend drove me to many suicide attempts and the possible rape of the father of the so called "#Grossmorder" girlfriend to drive him to murder his grandmother, and I bet the house of the grandmother was inherited to the father of the "Grossmorder"

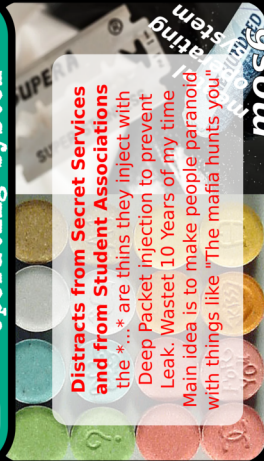

Ritual Abuse Mental Operating System

 My definition of a Mental Operating System would be a **almost coherent dogma room for lazy people**. This card is maybe played with mos2, mos3 Card in random or specific order. Maybe ritual abuse, Rape, Pedophilia that unfortunately exists is just used by the people like modern, Joseph Mengele to obfuscate Illegal Human Experiments. See Cards: eye1, t*, So parents that abused eg their kids, are just another thing to trigger psycne of the victim for not finding out the truth about the implanted things. The Rapist must not be the one that implanted the illegal things, maybe not even knowing. **So this card would be one way they hide illegal human experiments**. One could easy use this to find out if patient was subject to illegal experiments, consider Modus Tollens, Modus Ponens and a16 card. I heard that in Nazi Germany was something like **ButMagie** used for the swords in Wewelsburg where for example killing someone gives higher access codes, which would imply that maybe the Nazis were also just NPC's and controlled by that middle layer to obfuscate t1, t40, t41...

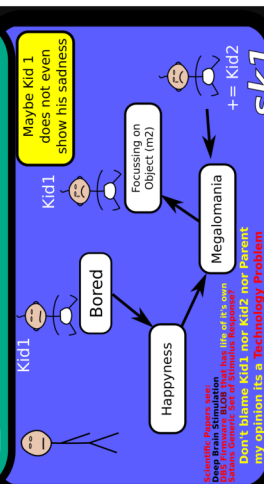

Don Corleone MOS Illegal Drugs Mental Operating System

 It is likely that Mental Operating System Cards are Groups of people "MAIL*FUJ" that are all part of a group that seems to be driven to attack me. Relevant would be to find the person, that *\$1940sShrink; Di* Makes the group attacking me. In my case they begun to "CAPT" play "FUJ" multiple MOS cards at the same time. So I found out that, or at least I guess that all MOS cards have some sort of the same **abstract upper class**, with their rituals, secrets, enemies...
 Eg. illegal drugs obfuscates pedophilia and pedophilia obfuscates illegal drugs (to speak in the programming language java, there must be some sort of interface) it would also be likely that people that use illegal drugs are also prone to pedophilia and that are pedophile "CAPT URS Padophillia" people would also be prone to illegal drugs. *E* "Du verdammte schweis wixer" For example XTC makes people lucky and love each other, so this people would maybe just be the lunch of those who love consume cocaine that makes them feel more "superior".
Obfuscates the technology cards like Stimicealver...

Statemachine (bad for kids)

 1. Kid 1 is bored (therefore doing things random things to stop the boredom)
 2. Parent 1 spends time with Kid 1
 3. Kid 1 stops with random things and is lucky that Parent 1 plays with him / her;
 4. Kid 2 thinks it would be existentially to be part of this group (Kid 1 & Parent 1) too
 5. Parent 1 plays with Kid 2 too
 6. Kid 1 now thinks that it is a threat to his existence
 7. Maybe therefore Kid 1 is begin to be evil to Kid 2
 8. Parent 1 tries to make them play with each other or as a group of three
 9. **technology** (* card) makes Kid1 focus on Objects (m2 card) and so the **problem** stays unsolved
 10a. Kid 1 & Kid 2 dont learn to 8. -> goto 1
 10b. Additionally the parents() would be scapegoats for this possibly technological induced problem, eg. b1 & t1 Card.
 11. by the age of 20+ one would play cards mos2=m37=dt1??

RETINA CCD

<https://0x8.ch/HackersCardgame21>

Inventor: xxxxx
Year: ~????
 Maybe "in the far future" we could be hypnotized by a QR-CODE since the Neuralink would dissociate one by a specific QR-code. Calling one insane or schizophrenic would maybe help to hide what they have done to him. On the back of the ccd Sensor you could even have a small LCD for triggering things (Stimulus-Response-Habits). So if unsure about that, **CLOSE EYES WHEN TYPING PASSWORDS**. Even if a medic does such things in hospital and sterile environment, you could loose permanently eyesight. So maybe not the best idea. Workaround for hacked RetinaCCD would be to jam the frequencies used by the RetinaCCD. Another thing would be to find **eye entral Server (CIA/NSA?)**, then one could prove that this system is **bidirectional**, that they stalked Marc Jr since he was a 13 years boy old in Aarau BEZ. (Ecriture automatique). The cams that were installed by Alinag AG would therefore be the scapegoats that distracts from this card, and that eg. INSERT; 1960s parents stalked their underage kids even in their beds. More relevant they use Photogrammetry to create m89.
