INDUCED BURNOUT

Year: ~????

If a whitehat hacker discovers that the company he works in (for example in Switzerland) is maybe owned by NSA/CIA and would begin to tweet about that one would maybe ask, why the whistleblower was killed after tweeting that. So those people would attack him with different methods, eg. with declaring him Schizophrenic or with things like induced Occupational burnout. The chief maybe says stupid things like, "we only want to help marc" lets put him in mental institution that he gets better. but as we know already, a mental institution makes it much much more worse.

To prevent that the remove whitehat hackers and whistleblowers or even kill them tell the people about this sort of NSA/CIA infiltration and terrorism.

WAIT TIME

And if the kid / victim that was abused (abuse = obfuscation for human experiments) and transformed in a bot and he would be fast for the people who did this to him / her they would send him to smoke a cigarette (Stimulus-Reaction-Habit or Electronic Harassment) so the can change things or fake the protocol or steal prove.

If one smokes, its possibly also a victim of such illegal human experiments. But it is also possible that one of the offenders smokes to obfuscate his role as culprit (a14 Card)

Behavioral "Sciences": They enable the pain implant in the frontal lobe, and if you smoked they disable it, so you smoke.

fool's cap

Inventor: xxxxxx

Year: ~????

In the Middle Ages a fool or a Tor (german: töricht = foolish) was the person, who entertained the royal household and was dressed mostly strange but funny. The term "fool" also refers to persons who are very immature, stupid, clumsy, biased, prejudiced, ignorant. I guess "ignorant" was inserted later. The fool is normally not ignorant and if the king has a black heart it would be even dangerous to tell him what many others think directly in his face.

Kings often do not want to look in the mirror because they know normally that they are fat, hairy and ignorant. The fool tries to show the king his own stupidity without being killed (jester's licence) by the king (= Satan)

Lion

The carnivorous lion symbolizes the Alpha Animal in a (social)-system. In Economy these are often trendsetters that make their followers buy things they don't really need. They use the an satans global marketing infrastructure that unfortunately also kills innocent kids in the 3rd world but als eg. in Switzerland a you see on card m46. Being in your circle of equal aged people is normally much more satisfying but the infrastructure tries to split them with eg.

sk1 && b1, co6, co7, m37 -> m46 -> dt1.... Maybe useful as bad example or as carpet (note, hopefully this picture represents a faux fur lion, so no animal had to die). The "master" lion seems to create other lions as scapegoats but also to make them defend him and his Hitler-Mental-Operating-System

Crown

Inventor: xxxxxx

Year: ~????

A crown (Latin corona, the wreath ; Greek κορὀνα, wreath', crown) is a precious, mostly made of gold and precious stones, predominantly of the Christian-Occident ruler: it expresses its power and dignity(?) as well as symbol for being ignorant, normally if one would sell the crown, he would have money to save many kids in the 3rd world. See also m40 Card. Frequently used in advertising, most often adapts / compensates low self-esteem, that is often a result if a father bosses around the kids to compensate his own low self-esteem that he maybe has from his father or boss or shrink.

laurel wreath

Inventor: xxxxxx

Year: ~????

A laurel wreath is a wreath made of branches and leaves of the laurel (latin laurus). The laurel wreath is a symbol and an insignia for a special honor or distinction, for a victory (eg. for killing sheeps or even innocent children) or a special success. So to say the special super-duper superman hero

To compensate low self-esteem (object fixation) with this once-received laurel wreath. About as Intelligent as using always the one and the same One-Time-Pad.
