

Spinal Cord Implant

RISK SCORE: 10

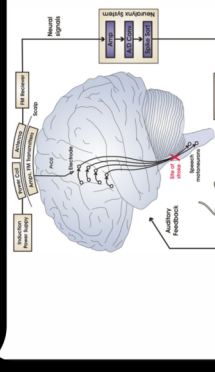

Inventor: xxxxx

Year: ~????
 Originally an implant in the spinal cord (medulla spinalis) that could force an >>> **orgasm** <<< (they talk explicitly about "sexual things" to make the people focus on that (m107 Card) and to **obfuscate** that the whole body can be remote controlled by such technology).
 patented 40 years later 1999 under US6169924. "Today maybe encanced with more than just that "wire" (US Army researches in this field) Output; the victim can be "used" as a robot / soldier / killer or sex slave with a 3D model of the victim in a 3D environment (like games) if all people would have such thing they could create a weapon out of such technology and unfortunately kill billions in a few seconds. Hopefully those who created this system considered that vulnerability. Mobile phone could act as Uplink to a mainframe (the US Army maybe uses the Cry-Engine with PhysX for the "Simulation")"

COEXIST

"Love and compassion are necessities, not luxuries."
 -Dalai Lama

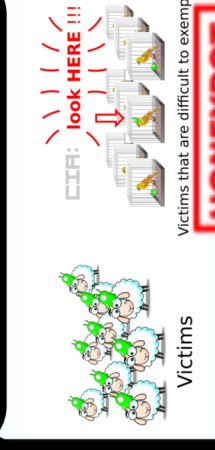

Inventor: comparative religion sciences

Evil Systems, or more some few people in big systems like the **CIA** or **StudentAssociations...** mostly older people tend to separate society eg. left-wing from right-wing or christianity from islam from judaism, white from black, ... they try to make them fight each other while those who made them younger people with the message: **COEXIST**. As a christian for example learned a lot from Islamic or jewish culture. Notice: for many people today science or atheism is also some sort of religion even if it's called atheism. Those people who make profit out of wars would maybe want to destroy this card so that they can play on their dirty game. I please all religions to distribute and protect this sort of COEXIST cards. This Card would help to mitigate the "Divide Et Impera" on the flags of some StudentAssociations...

HONEYPOT

Inventor: Satan
Year: ~????

update: some of the hostages are institutional honeypots, for example if i found out about the fact that mental institutions are used by the cia (MindControl=Psychology=Psychiatry...) then we of course would try to free ierrorr's mother, but possibly the cia created this situation just in case that someone like me that was already in mental institutions would find out about this dirty "game".
 So "possibly" there is already a big team that waits on people that try to free jacobs mother, so best way would be to help and support that people (eg. gz/mad people) that were already in the same mental institution help them and ask them for help and information(s). It would be likely that not just in the case of ierrorr the mental institutions go after the whole family and also use m50 card in the family
 consider cards: a14, a15, m124
DANGER: if this hypothesis is correct be aware of a16 cards

Crypto Beginners Toolkit

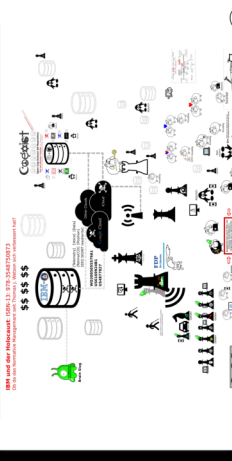

Inventor: Satan
Year: ~????

You can do easy for example create a ROT13 encryption, that of course can be broken in seconds, but to begin with crypto it's maybe a good exercise, then continue maybe with Vigenere cipher, and then p-boxes and s-boxes.
 Be careful, if you begin with crypto eg your local military would like to own you and to prevent that you dont join the crypto-anarchy movement.
 Work in pairs of at least 2 people, if they want to put you in mental institution to erase your brain you have better chances to prevent that.

So first the Agent in Matrix (Agent Smith) is somehow to young and to make the Agents feel superior such institutions have specific design, so possibly one would find out quite fast if a company is played by the NSA/CIA just by looking at the design of the building and the design of its rooms...
 not yet 100% sure about that...
