

Brodmann areas (esotheric interpretation)

Like the brain is split up into different areas, content in the brain is also split up into knowledge areas. Maybe in conjunction with b5 card that stimulates specific parts of the neocortex.
 My brain has some sort of black holes, co8 card is one of them. Things that are to personal to talk about, things that are private, things like abuse, rape, violence, Satan seems to plant vectors into all other areas that point to that traumatic event to make me silent, to stop me from analyzing data and situations, to stop me from warning others from things stan did to me. This is maybe sorted like some sort of personal libraries index where each person has his own subset of knowledge areas.
 Different subsets of the knowledge, different world-views, maybe intentionally antagonizing (ms5)

BRODMANN AREAS

Brodmann areas were originally defined and numbered by the German anatomist Korbinian Brodmann based on the cytoarchitectural organization of neurons he observed in the cerebral cortex using the Nissl method of cell staining. Brodmann published his maps of cortical areas in humans, monkeys, and other species in 1909.[1] along with many other findings and observations regarding the general cell types and laminar organization of the mammalian cortex. The same Brodmann area number in different species does not necessarily indicate homologous areas.[2] A similar, but more detailed cortical map was published by Constantin von Economo and Georg N. Koskinas in 1925.[3]

ENDOCRINOLOGY

The (neuro-) endocrine system is highly complex. So one can influence behavior and health with homeopathic doses of chemical substances, but also with behavior or radiation. For me it is to complex to understand and im not sure if a doctor in endocrinology completely understands what would happen when you change just a small element in the complete system. If there is such a AI that helps the doctors to make patients healthy again it would maybe also subject to attacks. So hopefully some doctors are hackers to. I dont know a lot about medicine, but when I asked @umbas if they had a look at the insulin pumps they recommend to their doctors and students they did not answer. That was a few years ago when CCC talked about such things.

RETINA CCD

Maybe "in the far future" we could be hypnotized by a QR-CODE since the Neuralink would dissociate one by a specific QR-code. Calling one insane or schizophrenic would maybe help to hide what they have done to him. On the back of the ccd sensor you could even have a small LCD for triggering things. (Stimulus-Response-Habits). So if unsure about that, **CLOSE EYES WHEN TYPING PASSWORDS**. Even if a medic does such things in hospital and sterile environment, you could loose permanently eyesight. So maybe not the best idea. Workaround for hacked RetinaCCD would be to jam the frequencies used by the RetinaCCD. Another thing would be to find eye entral server (CIA/NSA?), then one could prove that was a 13 years boy old in Aarau BE2 (Écriture automatique). The cems that were installed by Alingag AG would therefore be the scapegoats that distracts from this card, and that eg. INSEKT: 1960s parents stalked their underage kids even in their beds. More relevant they use Photogrammetry, to create m89.

Relations Between Mental Operating Systems

I guess the people are intentionally splitted in separate groups (divide et impera) by big sociopathic Student Associations. Throwing a kid an an Archnemesis group makes him/her feel bad, psychotic and aggressive. If these big Student Agencies control also NSA/CIA/DSM5 they for example could do this with their Social Media Algorithms that would show content of Left-Wing-Extremist in a group of Right-Wing-Extremists, and for sure this would generate a big shitstorm against this single person; Behavioral Sciences

Simpsons Mental Operating System

My definition of a Mental Operating System would be a almost coherent dogma room for lazy people. See mos3 card. For example one could render down significant simpsons scenes on a Sun Grid Engine to 200x150 pixel and use this scenes on eg t1, t10, t12, t* cards to influence the 1980s generation to do things the right way. For example when bart sells his soul and lisa helps bart to get his soul back. Since **Matthew „Matt“ Abram Greening** seems to be one of the good guys it would be hard for the mos3 card people to abuse the mos1 card. Hopefully those scenes are covered by normally broadcasting fees in switzerland, about anyway see co4 card. Unfortunately this content is not cco...

Paedo Mental Operating System

Important persons like politicians, scientists, parents... would maybe get an invitation to (cyber-)rape a young girl or boy as soon as they become somehow relevant. All those of them that bites in forbidden fruit can then be blackmail with persons that would know "Maybe" NSA 7 CIA datarotation systems play a role there. The CIA would maybe integrate only people with a criminal record like eg. pedophilia to keep them silent. It is very likely that if one eaten this forbidden fruit things like Suicide Death Bot would work better on the offender but also the victim. Even when the stream was only a simulation, things like m32, m44 would happen, and the offender would get dcl or m46. mos3 card obfuscates technology cards t1, t10, t12. pedophilia is a trigger topic that deactivates critical thinking because Pedophilia is a strong image, often only virtual. Played or make people eg forget about things like Mairimare or in Switzerland the Act example Military Fiber Network there is controlled over (Backbone) it would be likely that the CIA promises always 88 Virgins (Seductive Coercion) but if he would fulfill the false promise the CIA would loose the influence. Nazi Mental Operating System

Mental Operating System would be a almost coherent dogma room for lazy people. Those who create those systems try to make as less mistakes as possible, so that the members don't have to much cognitive dissonances otherwise they would start to think by their own. But the creator adds backdoors and triggers to the dogma room, so he can control and trigger its members. There are antagonizing dogma rooms, eg. the Nazi the Jewish Science Mental Operating System, they would maybe be incompatible (m50 card). In my opinion the Jewish Science MOS has less bugs, but people with low intelligence would have less ambiguity tolerance. To show the Nazis where they have bugs could help to improve the situation. But to disassemble and uninstall a complete MOS takes a lot of effort. If you find a younger Nazi that is on the wrong way but has not yet killed it wouldnt be ok to put him into jail, the only morally intact thing would be to help him / her that (s)he does not makes to much stupid things. I guess Nazis are victims of parental abuse to use them as a Human-BOT.
