Possibly this unnice guy is on cocaine and thinks he installs psychological malware to the kids at that party. In fact he is just the scapegoate but does it intentionally. Remote Controlled by t1 card, if you find this video you will find out what i mean, listen to what he says.

All the things i wrote to that noted here seems to be deleted: <http://marciandoit.ch/doc/mastersOfHardcore.html>

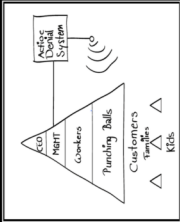

important thing would be that possibly all the young people from this party was owned mit hardware-, software- and psychological backdoors.

if true we need a rescue mission.

we should change that

The funny thing, in the end the big spked blob kills Neo, making all people forget about the PsyOP that was shown even as a good person. I dont believe that Sigmund Freud = PsyOP is a good person.... but this is not proven >yet<

"Matrix Architect"

The highly praised „Architect“ probably also MCS:3

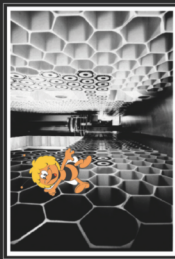

...is probably just an MKULTRA Psyop, influencing a complete group of people with a generic upstream mind control system of CIA

Inventor: Greta? ♥

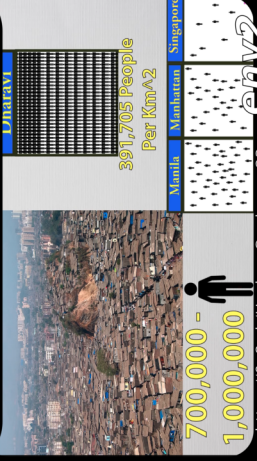

Year: ~2016

This is not yet implemented, but we should look at how much energy each person wastes: Car Driving, CO2 intensive Goods, Heating Temperature... The less one wastes the more timeslots and the less false informations and spam one gets on the mainframe-avatar. When my computer Room is not use it's switched of by a physical switch.

To Save The Planet. Thanks to Greta for telling us older people that we **MUST ACT NOW**.

Slums

Hackers-Cardgame is just a problem of the rich-manis-world. I spent 500'000 \$ to defend me against the attacks of \$herFather, \$herOnkel, \$herMother and \$1940s\$hrink. Imagine how many people i could have helped in the third world or in slums with this amount of money that was wasted to defend myself. So maybe this HackersCardgame help others that they dont need to go the same way. Even i needed the money eg for co4 card, i though could spend a few thousand \$ for charities. One should not force people to spend \$ for charities and NGOs, but if you have enough money, why not helping the poorest people on the world. And i bet many of such slums are subject to illegal human experiments. Source of image: <https://www.youtube.com/watch?>

So first the Agent in Matrix (Agent Smith) is somehow to young and to make the Agents feel superior such institutions have specific design, so possibly one would find out quite fast if a company is payed by the NSA/CIA just by looking at the design of the building and the design of its rooms...

not yet 100% sure about that...
