Somehow they can detect when equal aged kids tell each other that they love each other. Natural Language Processing AI?

in my case normally pedophile people that destroys everything or even begin to swear or threaten us.

- unsure if jealousy
- drunken sadistic
- to make kids consume stuff they dont need
- to make slaves out of the kids with promising to put them back in their group of equal aged
- ???
- they seem to do this already with small kids (sk1 card) GFY for that!

## confessional (to confess)

We guess the NSACIA works with the principle of seduction. He gives the people the opportunity to get money if they sell their soul, or if they sell their soul just a little bit. With Bigbata and 100 Years of DataRetention they would know about the smallest sin. Thy used m66 Card as Scapegoat.

One working hack to work around this principle is to confess what you have done. Me for example I drove drunken car and did other things, so i tried to turn myself in, but they said that this sins were expired. From that point in time the NSACIA System couldn't blackmail me with this sins anymore, unfortunately they then began to shoot against my sexual integrity. **Consumer Note: Nun not included in all use cases.**

## To force others to do your work (Pirates of the Caribbean II)

m132

In *Pirates of the Caribbean 2*, there is a scene where the lost pirates play for fewer years of sea life. This parable is promoted also in the real world, to quote Jack: **The law is in favour for an oppressor that is criminal**. For example a criminal or a pedophile father that eg. rapes his daughter and uses eg. his son as a scapegoat. (German: "Freiandspiegung"). This way the criminal father would win time to do more crimes, while the scapegoat would be naked to the justice system, would face prison, mental institution and wastes a lot of his time. **m72 card makes this quite easy for the older people.** We guess the CIA suggested the combination of m72 && m132 to all the older people and just a few could resist. The CIA wanted people would get support by other sinners and the CIA. With NSA Bigbata and 100 Years of DataRetention it's easy to blackmail and abuse them (m74). System is autopoietic, except the younger people can prove it, then the real criminal would end up in prison with much much more years of service. The old people would not hesitate to kill innocent whistleblowers (m46). Eg. the kids movie "caspar" unfortunately even canonizes that. **So watchout for Parents that promotes or even forces cool card. It's not a real crime but it is some sort of satanis starter kit**

## Seductive Coercion PART 1

m133

**Inventor: xxxxxx**

As far as I could find out, the NSACIA try to seduce you with young children. They render them even into your bed, tell you that you can rape the younger girl now, if you are a person that keeps the promise you gave your first girl, you would stand up from your bed to prevent that scene. My co-worker at the ISP Zikret Sabrina L. was shown in my bed for having sex with me, but I **immediately stood up and protocolled to my diary** "Sabrina L. would like to cyber-rape me" and smoked a cigaret and did things not in context to sexual integrity. They changed my diary to **"I want to cyber-rape Sabrina L."** kicked me out of the job and put me in a mental institution, if I would have said yes, then they could play m134 card with "you consumed, so you is legitimate that you are now the product", I could only find out because I did not. With this chess move they can easily drive uneducated people to kill an equal aged m37 -> dt1. That was about that time where I began to ask questions if the former chief of ISP Zikret committed suicide because of NSACIA in ~2006

## Seductive Coercion PART 2 (molest with old people)

m134

**Inventor: xxxxxx**

Even if you did not consume m133 Card, they unfortunately put old pedophile people into your bed, apparent, on your body sometimes just an avatar, sometimes real connections (m98 & m299 card) to rage you, or to make you run suicide or amok, but in fact the NSACIA wants to distract you from SIGINT / COMINT and HUMINT Concept Knowledge. During this scenes they activate things like bl, t1, t15 to make you even rage more. Maybe Mail Attachment. **It is abused to force witnesses or juries to do false acustitions.** It is ok for me, if younger people don't help me or older people in the face of attack, but putting an innocent person like me into jail or a mental institution is not ok. in this case I / we can not protect you anymore because then you are already part of the problem. We we could rescue all equal aged and younger people, since we know that **we need a method to protect the complete social network (COMINT / SIGINT) of the whistlehat hacker / whistleblower** and maybe his/her shrinks if they are younger. "Firewall!?" (Norsatz), "everybody is good enough" (later m1337)

## the sum of psychological keys is constant

m136

**Inventor: xxxxxx**  
Year: ~????  
In Swiss Law the Article STGB 185 should prevent that captors own and enslave people. The Article also should prohibit that people are enslaved with psychological tricks. Trauma that are theraped can not be used anymore to make eg. young people do what the older people wants them to do. Trauma seem to be activated by an order of images, voices... can be theraped, but if the Schizophrenic Person that is in some cases a victim of an STGB 185 is free (not as in free been) they seem to activate people that generate new, similar scenes and the image or voice sequences that activated the trauma is then re-rendered. **FHA 2002: "Die Summe der Fehler ist konstant" "After the sequences are re-rendered, the victim could again be triggered with the same keys, except he/she knows this dirty concept. 3 Months in a Mental institution renews all keys that should not exist at all. After i released card PsyOP started loop "Marc Jr Parents are Pedophile..." to spam this information(s)..."**

## Interface for Social-Psychology Design Patterns

m137

**Inventor: xxxxxx**  
Year: ~????  
The PsyOPs seem to work in different Groups, one group tries to manipulate the Whistleblower or Whitehat, the other group seems to manipulate the family of the Whistleblower. They have touring complete avatars of all people you know, so it's quite hard to find out what is true communication(s) and what is simulation. Separation from his social systme makes it more difficult. One move of my Shrink was to tell me to catch up on my past, and my father he told not to catch up with his past. So he can inject the word "catch up" to generate an antagonizing situation (m50). I guess technically there would be some interface between such two world-views, maybe some sort of crash detection that wants to crash people intentionally, further research required.
