m15-mod2

Inventor: Satan / Capitalism / Advertising Industry
Limbic System Vulnerability Card 1. maybe failed on some individuals like Nerds, Autistic People... so they took good looking young girls and nerfified them to attract the Nerds too. As we found out it would be likely that she is innocent but her father is maybe satan himself or at least one of his mates and then they would play sequences like

m38-> m19 -> c06 -> m32 -> m41 -> m37 -> m44

Limbic System Vulnerability

Inventor: Satan / Capitalism / Advertising Industry
Since we are genetically still over 90% identical to our ancestors that were driven by the limbic system (Neandertals, Monkeys, RUST™-Bots) our brain is vulnerable eg. to fat food, sex, kids slides. This is used by advertising industry, but also "used" for imposing your will upon others.

Michael Foucault: "Human body and the human disposition in terms of the priority of sexual desire" (Euphemism)
A Sociopath does not care about the sexual integrity of others, his primary focus is to sell crap and he would also abuse the SSC BDSM card and ignore resulting consequences. m38 -> c01 && t1 && b1 -> m32 -> a16 -> m37 -> dt1

For example take a folder: with evidence for torture and add 50% BDSM-Porn Images to it and nobody will talk about the evidence.

ALT-TAB EEG Pattern Recognition before one presses key

There seems to be a function on pre-2020-neuralink that recognizes things before you even formulated the sentence in your brain. Likely that it is some sort of discrete mathematiks. Needs to be footprinted / enumerated first. Start could be recognition of the intention of pressing the Alt-TAB key combination on Windows Computers

Mostly Top-Down, seldom Bottom-Up. They seem to abuse Age Based Access to intimidate younger siblings or their children. Often one can read in news about pedophile people that We should identify who shows this behavior and people that are mostly the 1960s (we guess that are therapied with an intensive care bear. They also often use children to transmit these intimidations, the child that transmitted that is then abused as scapegoat

After some good howers of work they play the physical violence card (Euphemism). The violence is already entered in the mainframe. Even if you are strong enough not to wish you revenge as the loop wants to make you, you though need your AutisticHelmet.
Thing in question Psychological Effect:
- on victim? Maybe obfuscates remote ECT?
- on followers?
- prevent victim from finishing his TODOs?

with the option to detect feelings, it's easy for them to find out what drives one to commit suicide. if the older people hates you, because you found out about all their deeds and crimes they record also the "feelings lane" and try to find the things that drives you insane most. They then render this things on eg. m98/m99 card or in a loop-recorder part 1-3
