

induced and committed suicide

m46

<https://0x8.ch/HackersCardgame23>

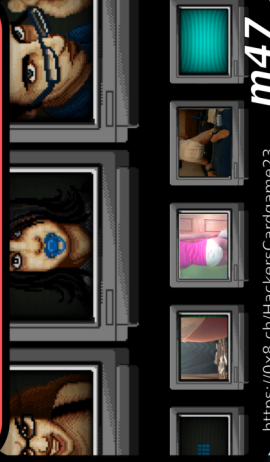

Inventor: Satan
 Often the offenders say that they would attack me with weapons or things like a16 card. I guess they drove Tobias Moser to commit suicide with his weapon from the Army. I guess they first told the group that he was cyber-raping girls, the group agreed to kill him (m37 card). They did not ask me, but I would not have agreed. They also know that all those people that said no to kill him would later ask questions. Generic, later they asked me to agree to Kill Ruedi, I disagreed. My answer is "not in our name" AND "es gilt die Unschuldsvermutung", since I say this about 100 times every day I guess they would like to make me a killer too. If played after m37 card this card is abused for **confess prevention and mindcontrol key** for the complete group.

 Maybe it would somehow **pedophile** if I would use baby products in the first run. But if you are already **targeted individual or messed with a military dictatorshop then use such products. Don't use the product you give the baby but the same product type from the same shop.** If the product has hidden malware / booby-traps, 0days the chance that **the military dictatorshop would activate them against you** is much bigger that that they would activate it against babies. Euphemism would be "additional selector". **Fuck this one: When they do, LOUDLY WITH A LEAK like babies.** The spoon on the picture is a product for coffee. So my plan was: smaller spoon = less coffee-powder. Unfortunately I found out, that (even when write "stainless" it) is not and lost some of the metal skin that went into my coffee. **WARNING, this will not make your life easier.**

 If you ask Google ABDL means "Ad Blocker" but maybe it has another meaning. But maybe it's for those who have the bad luck not to having any more good people in their life. I hope they are sure that the **comint** does not make your partner think you secretly married someone else and have kids with him or her. **So only click that with equal aged, and only then when you are 100.0% sure that you are not pedophile and never will become pedophile. see cards m41, r45, m37 and a16 if a15 and the group would get dt.** But playing with only one **equal aged** sane and consensual with diapers or acting like you are again 14 or 4 year old (with 1+) maybe also helps to process things that went wrong in the (early) childhood. Calling a friend "**Guggelbambler**" when he is 30 looks maybe like an insult, but can also have the effect, that the one the older person makes arrangements in their life. **When you are a child, you should always consult each other and when we both knew, that it is not meant mean, but just meant to be funny, helps decreasing paranoia** if you have trust to.

ABDL AGE-PLAY

Inventor: xxxxx
 Gruppen von alten glupschenden Männern und Frauen, die in einem Schwarm-Algorithmus ein Maximum an Psychoterror verursachen und so das jüngere Opfer psychotisch machen. Diese Human-BOTS wären somit alle gut fernsteuerbar von Satans Terrornetzwerk. Für mich als 40 Jähriger Mann ist das schon mühsam, wie schlimm muss das für eine junge Frau sein. Bekannte Personen wie z.B. Eltern sind weniger schlimm. Der 1940er Satan würde diese Karte z.B. den Eltern des Opfers spielen um es so auszugrenzen, zu isolieren und dann in der Psychiatrie zu "behandeln".
 Use Case: Behavioral Science, Schafe zu den alten Glupscher, Satane zu den jungen Schafen (m7/m8 card)
 += **Automatic Behavior Recognition** mit Sozopsychologie-Designpattern und Opfern mit gleichaltrigen erträglichen Kolleg/innen helfen.

 Some people tend to load **real Weapons** to the Game, so Game stops to be a **Game**. This is my **scouts knife** that I got when I was a 14 Years old boy. I used it as a toy and for woodwork. I never attacked someone. In Switzerland they changed the law, so this sort of tool is now declared as a weapon by law. I did not even know that I have this thing in a sealed wooden box. But when they put me the 7th time in a Mental institution the Police @kapo aargau searched all my stuff and found that knife and have put it on my table in my 1 room appartement. Even when they knew that I am quite suicidal and that I **unknown** Player always plays a16/dt3 card on me and that I was dozens times in emergency room & already one night on a ICU (Aarau). I destroyed the knife, but it's not a **game** at all. In my opinion all Weapons should be destroyed globally. A **Weapon is a "Konditionierende" to a Relation (a12)**. When they **Weapon to make me crazy my father took my Gun and brought it back to the Military. Father, thank you for that.**

Anti-Psychotics Part 2

m49

<https://0x8.ch/HackersCardgame23>

Inventor: ????
Year < 1999
 Some Mental Institutions give young adults or even kids drugs that make them stupid and happy. (Part 1) And with technology Cards (eg t1 or 70 years newer technology) they then (abuse them to infiltrate dangerous systems (Part 2), for example companies that are using or selling illegal drugs. The "antipsychotics" makes the kid stupid, lucky ignorant and would cause the kid to make fun about the people in question. So the company or chief in question would tend to hate and attack the young adult. See Human Rights, see Law. **Don't do such things, the chance is quite high that if the company does illegal things would kill the young adult!!!**

thrunky the elephant

Inventor: xxxxx
Year: ~????
 The trunk of the elephant can be interpreted by other children (that maybe were abused by pedophile older people) as phallic symbol, so the Rape would be virtually revived again (revictimizing, maybe t1, t15, b1 and other cards involved) and the victim would then maybe hate the kid with Elephant Plush much more, than the initial pedophile offender, depending on the "exposure time" See Clark Hulls Formula for Emotions. Maybe the reason why Stefan K. and Stefan W. threw Marc's Plush-Elephant out of the window from the 3rd floor in a christian camp when Marc Jr was about 14 Years old, but no details are known so far about this cases since both don't want to talk with Marc Jr. or it is censored on all communication paths.

Stanford prison "experiment" antagonizing situation / medication

 One can produce situations, where people are played off against each other. You could do this with drugs for example giving one person chemicals that make happy and funny and the other person chemicals that make sad. First case both victims will begin to fight each other while both victims think that he or she does the right thing. Maybe such chemicals with Technology cards (eg. t1...) you could possibly produce similar situations. Or in Politics, race, gender, Nazi " Jews... " or with just showing good or bad Facebook content (facebook experiment, see Internet). For example also to tell some people that the accused younger boy is guilty and therefore it would be "legitimate" that an older person takes his goods would create the same situation, the unjust decision is often in favour of the stronger like \$herFather that has weapons... **NOTICE UNSEEN THIRD.**
