

Ritual Abuse Mental Operating System

Inventor: CIA / Fischer Year: **????**

My definition of a Mental Operating System would be a almost coherent **dogma room** for **lazy people**. This card is maybe played with **mos2**, **mos3** Card in random or specific order. Maybe ritual abuse, Rape, pedophilia that unfortunately exists is just used by the people like modern Joseph Mengele to obfuscate illegal Human Experiments. See Cards: eye1, t*. So parents that abused eg their kids, are just another thing to trigger psyche of the victim for not finding out the truth about the implant things. The Rapist not be the one that implanted the illegal things, maybe not even knowing. So **this card would be one way they hide illegal human experiments**. One could easy use this to find out if patient was subjected to illegal experiments, consider Modus Tollens, Modus Ponens and a16 card. I heard that in Nazi Germany was something like **ButMagie** used for the swords in Wevelsburg where for example killing someone gives higher access codes, which would imply that maybe the Nazis were also just NPC's and controlled by that middle layer to obfuscate t1, t40, t41....

forced marriage Operating System

Inventor: ???? Year: **????**

Some military people their power to force a woman into marriage. Weapons are not only Guns or Tanks, also having access to eg Financial Systems, doctors degree, psychiatric degree destroy the live or hunt down eg the brother of the women he wants to rape. In Switzerland pharmacy industry did drug experiments with Verdingkinder (Children without Parents) So far not public known is that they also tested things like Stimocelver or Neuralink. Today all people in Switzerland seem to have such interfaces. Therefore there must be a backbone and we guess that this would be the Military Fiber Backbone. When I asked the Schulkommandant of Waffenplatz Wangen: "What is the military fiber backbone for" (I was not sure that there is one, social engineering) he said only "for marching orders only". Some Militaries intentionally let their soldiers force woman into marriage, if they do this with **secret technology**, the military can easily force them to **defend this secret**, otherwise her women could prove that she was forced to marry the soldier, so they let the soldiers intentionally abuse it. If female Victims would not get support from the justice system, they would try to destroy the military and the justice. Even by **abusing their or other kids as Scapagoats and weapons** and would kill 2 kids. "The lower", **Forced red team?**

Don Corleone MOS Illegal Drugs Mental Operating System

Inventor: ???? Year: **????**

It is likely that Mental Operating System Cards are Groups of people *MAIL* *FU* that are all part of a group that seems to be driven to attack me. Relevant would be to find the person, that *\$1940\$Shrink-DJ* makes the group attacking me. In my case they begun to *CAP* play *FU* multiple MOS cards at the same time. So I found out that, or at least I guess that all MOS cards have some sort of the same **abstract upper class**, with their rituals, secrets, enemies... Eg. illegal drugs, obfuscates, pedophilia and pedophilia obfuscates illegal drugs (to speak in the programming language java, there must be some sort of interface) it would also be likely that people that use illegal drugs are also prone to pedophilia and that are pedophile *CPI URS Pädophilie* people would also be prone to illegal drugs *E* *Dru verdammte-scheiss wiew* For example XTC makes people lucky, and love each other, so this people would maybe just be the lunch of those who consume cocaine that makes them like **Stimocelver...**

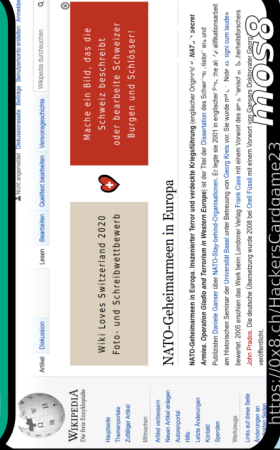

Montauk Mental operating System

Inventor: ???? Year: **????**

This book seems to be suggested to people in Aarau, that had grandmothers in Aarau Gönghard as soon as they were the first time in the mental institution Königsfelden. It talks about "magical crystals" like in the gemac Zak Mc Cracken. Talks about John von Neumann as the guy that remote controlled the mind of people with electronics, but not mentioning neuro-chirurgical doctors that would be required to add an interface to the brain like Neuralink. It explicitly talks not about possible technology like Stimocelver or u\$4877027. There are also scenes about women, goddesses what could imply that that one of the triggers to control and dissociate the first love like the situation with *FonyGirfriend* drove me to, many suicide attempts and the possible rape of the father of the so called *Grosinorder* girlfriend to drive him to murder his grandmother, and I bet the house of the grandmother was inherited to the father of the "Grosinorder"

Super Duper MEMBER of USA's / CIS's / Nato's infiltration HIDE

Inventor: ???? Year: **????**

Mental Operating System is a Dogma room someone can easily join without a lot of effort that makes him feel good or even superior

To compensate low self-esteem. When I was a young boy I also wanted to be super duper member of CIA or O07 himself. I found out, that it is not the right thing to do. For those people in USA you are only NPC's, willing soldiers they can use for their black ops, in the end they don't care what happens to this drones / NPC's, in Syria they just destroyed a lot of tangible and intangible goods and in the end the whole country loses, see: https://en.wikipedia.org/wiki/Game_theory

so please don't, to compensate low self-esteem and fix that behavior we need to realize, that we were all victims of parental narcissistic power abuse.

IMPORTANT: Not all but some....

Hacker Ethics

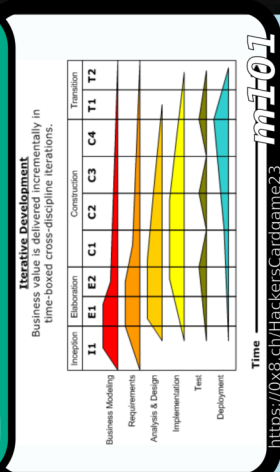

Inventor: xxxxxx Year: **~????**

- * Access to computers—and anything which might teach you something about the way the world works—should be unlimited and total. Always yield to the Hands-On Imperative!
- * All information should be free
- * Mistrust authority—promote decentralization
- * Hackers should be judged by their hacking, not criteria such as degrees, age, race, sex, or position
- * You can create art and beauty on a computer
- * Computers can change your life for the better

Second use case for RUP Graphics

Inventor: xxxxxx Year: **~????**

Rational Unified Process means iterative software development process framework. People seem to use this Graphics (where there is an initial process that then triggers another processes) as a way for hiding their crimes. For example if you call a 20 years old guy (dark yellow) a criminal the would maybe get a permit for surveillance of this 20 years old "man", from the stalking jury it would look green, turquoise) the jury would maybe not notice the initial event that caused these events because they don't stalk the real criminal (red) so they maybe even decide to kill the boy (dark yellow) See the m37 Card, Maybe Red uses this concept even to hid crimes like murderer that he committed and then would use the jury to kill the scapegoat (m46->dt1) and the problem would be that if dark yellow is dead red would just take the next scapegoat and kill again. It is likely that red uses strong crypto and things like t1, t12,.... cards.

5 Monkeys

Inventor: xxxxxx Year: **~????**

An urban legend explains, that if you put monkeys into a room with bananas on top of a ladder and punish the whole group (Behavioral Sciences, non-consensual) if one of them wants to get a banana after 1000 repetitions the monkeys then would attack that monkey that tries to get a banana. If you project this behavior to Foucaults Dispositiv (see German Article: Innerhalb Foucaults Theorie gesellschaftlicher Macht nimmt die Sexualität eine zentrale Position ein (<https://de.wikipedia.org/wiki/Sexualität#C3%A4ttsdispositiv>) and would cause pain to a group if one of them touches wiener (for example with Big-Data, b1, t1, t12 cards) they would attack the kid that touched his wiener. The Turtle comic (upper right corner) would imply, that this algorithm even crosses the line of generations. Crossing the line would cause the younger generation even to commit suicide since this socio-psychology-design-pattern then transmits pedophile parents that want rape the kids. **if only one monkey has a masochistic worldview this experiment will not work.** **ICD-10 F65.5 Stages masochism to a disease (Swiss law would allow SGB 59), that's how the try fix that glitch in their mindcontrol System**
