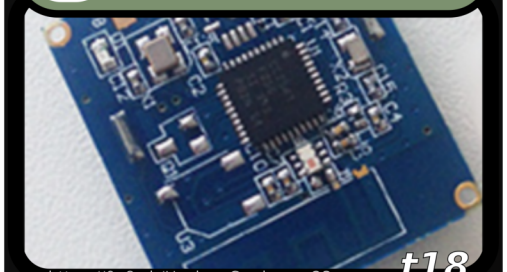
PoliceCar
(Stimulus-Reaction-Habit)

https://0x8.ch/HackersCardgame23 **t16**

Inventor: Romans **~500**

Etymologically, the term police is derived from the Greek πόλις, polis "city". It referred to the entire public administration (today as "construction police" and "fire police") outside of Greece as the fashion word of the Romans. Maybe abused as Chessman of the authorities, and in many countries the police are the group of people who commit the most murders. See also "Americans 58 Times More Likely to Be Killed by Cops Than by Terrorists"
Violence, riots, sometimes conflict rather escalating, often intimidating, biased often preserving only the power of the upper class, we should teach all cops Inductive reasoning. (can you find the intentionally placed bug in m55 card?)

WIFI / Bluetooth or other beacon



https://0x8.ch/HackersCardgame23 **t18**

Inventor: Heinrich Hertz **Year:** ~1930

(E.g. The Apple iBeacon is a radio bark or a radio buoy with memory and a small processor, Can be used to place virtual GeoCaches, but unfortunately could also to transmit a Suicide Death Bot (a16) to a Cell Phone, Computer, Neuronexus Implant, WO2005055579 to activate the victim to a suicide or amok run, worst case "Nuke function" like in Lemmings™ in 1990s.

* children's toys, GeoCaching (=Sports)
* air traffic control (ADS-B)
* unfortunately also electronic / psychological Warfare

Cyber choking chain

Inventor: ????? **Year:** ~????

With a golden wire / metallic substance that was injected into my throat they contract my muscules (possibly radio waves) that makes me paranoid. At the same time they loop the sentences "You have Cancer", "It's because you smoke", "It's just to keep you save", "It's just a game". That confuses / depresses me. BDSM toy materializes later, possibly shields the radio waves, or revictimize me, or some sort of hint in case i would die. Coping Strategy would be if you think that it is just some sexual game, but in fact it is illegal torture to silence whistleblowers / Whitehat Hackers. Since i'm interested in the truth i am maybe on the right way to find those old people that destroyed so many lifes. Unsure if this could be induced also by something like t1 or t6 card. I guess they use EEG (eg t1 Card) return channel to find out, if it succeeds destabilizing my psyche. They don't do peeks or spikes, otherwise it would be clear that it is electronically induced, if they do a crescendo over several hours it really sucks. Additional there is a blooden saliva mod, if you have permanently blood in you saliva visit a doctor!

Stimoceiver
dissolving Biological SMOTH and Faraday Cage Containers

https://0x8.ch/HackersCardgame23 **t1**

Inventor: José Manuel Rodriguz Delgado **~1950**

The newest versions Neuralink(Elon Musk, maybe HoneyPot) read EEG data transmits signals to brain. Can activeate certain functions in brain, wires in the Amygdala would probably cause agressions (b1 card). Active community (read only, and non-invasive) on Twitter: @OpenBCI. Even things like directly "built-in" Augmented Reality (Like PokemonGO) could be achieved with such technologies. There are maybe other ways WO2005055579A1, US4877027... (HoneyPots?). Maybe sold as lie detector (co2,m57,m77,m125...) reads thoughts & emotions, influences emotions, automate/abuse victims, CryEngine / Unity (m98,m99,t32,m60...) **Warning, it seems that if you find sources about this sort of things they upload Porn or even Pedophilia Content to your computer and activate the judges or m37 card... [[DARPA HAS NOW ELECTRONICS THAT DISSOLVE AFTER A WHILE]] Additional Disassembly Protection** for the group m46 first as shown as m41 over t1 then m37 -> m46 -> dt1 so people could not integrate the existence of things like Stimoceiver in their world view, Matthaeus::7::1

video not mentioning implants, i question that, Youtube CIA Honeypot?

WOBBLER SWEEP GENERATOR

https://0x8.ch/HackersCardgame23 **t20**

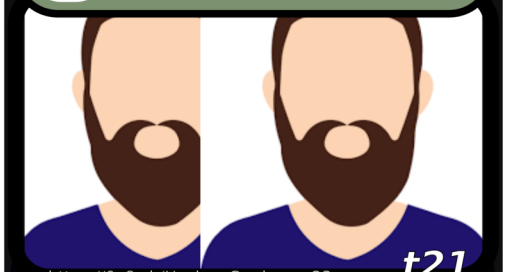
Inventor: xxxxx **Year:** ~????

Generates a sweep and then the echo of this sweep is evaluated to evaluate the whole system. More modern devices are beeing used in eg. docsis networks.

If you project this principle on wires/antennas that that have been placed below the skin and eg. a webcam as return channel you could maybe even portscan humans or hijack their telemetry

Today we expect that digital technologies are used, but the old things maybe still up and running

Touring Coplete Avatar



https://0x8.ch/HackersCardgame23 **t21**

Inventor: ????? **Year:** ~????

With enough computational Power one could create avatars (speech synthesis / deep fakes) that are "**touring complete**". = Avatar that can do everything real person could also do. Initially they used samples but one would find out if they use the same sample over and over again. Sociology design patterns with multiple touring complete Avatars one even could simulate complete real-live situations. You can never be sure if person you hear on eg Stimoceiver/US4877027 is really the person/group you are talking with. So best thing is to meet face to face (then they abuse this technology too but if you know this person well you would possibly find out). Touring Complete avatars not just simply exist, they had to be generated by unknown. If one knows to much about this sort of technology it would be likely that they create avatars for the people he knows and trusts, like Family or near friends.

Robot Teaching Mode

https://0x8.ch/HackersCardgame23 **t22**

Inventor: xxxxx **Year:** ~????

If your Hand suddenly begins with small movements on the screen. (Écriture automatique, return channel mouse) they have already hacked your spinal cord implant (medulla spinalis) and they are testing if they can take over my telemetry. In my particular case they beat my hands against my own head (there are movies where autists do such things and there are special helmets for that). After they sucessfully attacked you they revictimize the scene (t10 card). And even if they haven't killed me, it would influence me. Maybe this is how they killed Tobias Moser, m46. And for the equal aged friends of the victim this would have the effect of psychological warfare (ma4). if they used dt1 the real offender say it is all your fault, if not they say it's because you ate eg a cookie or drunk wine or other stupid reasons and b1,t1...

LoopRecorder Part 2

https://0x8.ch/HackersCardgame23 **t23**

Inventor: xxxxx **Year:** ~????

There seems to be a digital looprecorder where people add synchronized actions of other people to fill the loop with junk, problems, revictimizing of things they already did to the victim.
We are not sure why they are doing that, but it prevents the whistleblower or Whitehat Hacker to leak things or to fix bugs in software.
One possible reason could be, that people can eg. buy timeslots on Marc jrs Looprecorder for advertisement or for cyberterror. If you look at the Rawhammer Card of Mind (co2), this would drive people crazy (satan would interfere) here to make you forget about the looprecorder or more worse, they would begin to ruin armor or suicide possibly Quantum inserts, Turbine, Tarmiol are used for this but not yet sure about that. see Jacob Applebaums video "To Protect and Infect, Part2"
